

ROOFING REQUIREMENTS

- Ice and water shield is required along the perimeter of the roof and in valleys (if present).
- **Maximum of two layers of roofing allowed.**
- All debris and dirt shall be hauled away prior to the final inspection.
- Mineral surface rolled roofing is not permitted roof coverings.
- Tar or sealants are not an acceptable form of flashing.
- **Two (2) Required Inspections:** (1) Ice & water shield (2) Final inspection after removal of all debris. If decking is replaced inform the Building Department when the job is started and call for inspection prior to ice & water shield installation.
- Notify the Building Department before starting any installation.
- New roof coverings shall not be installed without removing existing roof coverings when the roof covering is water-soaked or has deteriorated to the point that the existing roof covering is not adequate as a base for additional roofing.
