SCOPE: These Terms and Conditions (these "Terms") govern the sale of products (the "Products") to the Buyer as described on the accompanying Order Form (as amended from time to time, "Order Form" and, together with these Terms and Conditions, this "Purchase Agreement"). This Purchase Agreement constitutes the final, complete, and exclusive agreement between Buyer and Seller as to the sale of the Product identified in Order Form and supersedes all prior oral or written agreements (whether expressed or implied, including implied by custom, practice, course of dealing, or otherwise) with respect to the same, Buyer's execution of this Purchase Agreement, the making of any payment, or deposit to Seller as provided in this Purchase Agreement will constitute Buyer's acceptance of the terms and conditions of this Purchase Agreement. To the extent there are any inconsistencies between these Terms and Conditions and Order Form, the latter will control.

ORDERS: Acceptance of Buyer's order is expressly made conditional on assent to the terms and conditions set forth herein, which shall constitute the complete agreement between the parties.

PRODUCTS COMMITMENT: Seller will provide all materials necessary as outlined in the Order Form in order for the Buyer to construct the Timberlyne portion of the structure. The Buyer agrees to follow the final plans and reference the construction guide and become knowledgeable on the additional items necessary/recommended to erect the building that are not included in the Product(s) purchased.

SITE AND PERMIT PREPARATION: Buyer will provide a site as well as the equipment necessary to unload and store all building materials during the arrival, unloading, and building of the Products. The Buyer is responsible for knowing of and acquiring any permits necessary in order to construct the Products. If Seller includes in Order Form installation services, Seller will provide its own equipment to unload. It is the Buyer's responsibility to ensure the site & material storage area is flat and free of mud and is ready for delivery and unload of Products.

DELIVERY:

- 1. <u>Date:</u> Seller shall assign a delivery date(s) for the Products after the progress payment is received by Seller. Any changes to the shipping/delivery date requested by the Buyer after a shipping/delivery date has been set may result in additional fees, penalties, storage charges, and other expenses, and such amounts shall be invoiced to and paid by Buyer. Buyer's requested changes to the shipping/delivery date is subject to approval by Seller in its sole discretion. Seller reserves the right to make delivery in installments, unless otherwise expressly agreed to by the parties; all such installments to be separately invoiced and paid for when due per the invoice, without regard to subsequent deliveries. Estimated total shipping costs will be sent to the Buyer within 30 days of shipment of the Products. Any credit or additional costs will be applied at time of shipment.
- 2. <u>Buyer Requested Delay:</u> Buyer acknowledges and agrees that Seller begins production of the Products upon the schedule agreed to by the parties, and that any deviation in the schedule may cause Buyer to incur additional expenses for changes in shipping, storage, demurrage, and other expenses related to such delay. In the event Buyer requires a change to the shipping/delivery date ("Delay"), Buyer shall promptly submit a Delay request to Seller at least thirty-one (31) days prior to the shipping/delivery date. If Buyer requests a Delay within thirty (30) days before the scheduled shipping/delivery date, the following fees will be incurred: (a) \$1,000 to reschedule (if request is made within fifteen (15) or more calendar days before the agreed upon shipment/delivery date); (b) \$2,500 to reschedule (if request is made within fifteen (15) calendar days of the agreed upon shipment/delivery date). Additionally, demurrage fees of 0,25% of final Product Total per week of such Delay will be calculated and assessed for delays after fourteen (14) days of the original agreed upon shipment/delivery date. If Buyer requests a Delay, Seller, in its sole and absolute discretion, will store the Products for a period no longer than ninety (90) days, and shall ship the Products to Buyer upon expiration of such ninety (90) day period. Buyer shall indemnify, defend, and hold harmless from any and all claims arising out of or related to a Delay requested by Buyer.
- 3. Location: Seller will ship the Product to the specified address provided by the Buyer on the Order Form (the "Delivery Point"). If for any reason Buyer, or Buyer's contractor or other agent fails to accept delivery of any of the Products on the date fixed pursuant to Seller's notice that the Products have been delivered at the Delivery Point, or if Seller is unable to deliver the Product at the Delivery Point on such date because Buyer has not provided appropriate instructions, documents, licenses or authorizations: (i) risk of loss to the Product shall pass to Buyer; (ii) the Product shall be deemed to have been delivered; and (iii) Seller, at its option, may store the Product until Buyer picks them up, whereupon Buyer shall be liable for all related costs and expenses (including, without limitation, storage and insurance).

4. Requirements and Specifications:

- a. Buyer's Products will arrive on full-size flatbed or step deck trailer(s). The truck/trailer combination is on average 75' in length, 13'6" in height and 8'6" wide with a weight of up to 80,000 lbs.
- b. It is the Buyer's responsibility to ensure that the route into the Delivery Point and the building site in general is accessible and can accommodate safe and legal entry and exit of the truck(s) as necessary.
- c. The Buyer must be prepared with an alternate delivery plan and communicate that plan with Seller in the event of problems during delivery. Delays caused by not being prepared can result in significant additional expense to the Buyer in detention, storage, and other fees with the carrier. Buyer shall be solely liable for all such additional expenses, and shall indemnify, defend, and hold Seller harmless from additional expenses.
- 5. Liability: It is possible that unforeseen occurrences may happen during the trucking/delivery of the Product which may include, but are not limited to, mechanical, technical, weather, availability of transportation, or other inherit situations, which Seller cannot control and shall not be held liable for any such unforeseen circumstances.
- 6. Non-Delivery: The quantity of any installment of Products as recorded by Seller on dispatch from Seller's place of business is conclusive evidence of the quantity received by Buyer on delivery unless Buyer can provide conclusive evidence proving the contrary. Seller shall not be liable for any non-delivery of Products (even if caused by Seller's negligence) unless Buyer gives written notice to Seller of the non-delivery within seven (7) business days of the date when the Products would in the ordinary course of events have been received. Any liability of Seller for non-delivery of any Products shall be limited to replacing the Products within a reasonable time or adjusting the invoice respecting such Products to reflect the actual quantity delivered. Buyer acknowledges and agrees that the remedies set forth in this section are Buyer's exclusive remedies for any non-delivery of Products.

INSPECTION AND REJECTION OF NONCONFORMING PRODUCTS: Buyer agrees to complete a full inspection of all Product upon receipt of each shipment. Any claims for shortage in quantity or defective Products should be communicated to Seller within ten (10) calendar days of receipt. Please note that due to the nature of wood and possible imperfections, the Seller provides additional material overages. If no communication has been made within ten (10) calendar days of receipt, the Seller will consider the receipt of Product as acceptable and an admission by Buyer that the Products fully comply with all terms and conditions in this Purchase Agreement. The Buyer is then responsible for proper care and maintenance of the Product through the completion of construction. If Buyer timely notifies Seller of any nonconforming Product, Seller shall, in its sole discretion, (i) replace such nonconforming Products with conforming Products, or (ii) credit or refund the Price for such nonconforming Products, together with any reasonable shipping and handling expenses incurred by Buyer in connection therewith.

CONSTRUCTION DISCLAIMER: Seller assumes no liability as a result of the Buyer building a structure using the Products. The Buyer agrees to learn, or to hire same, and know best practices, industry standards, safety methods, in order to safely and properly assemble the Products. Seller shall not be liable for any accidents or injuries during construction. Buyer agrees to not hold Seller liable for decisions made after the Products have been delivered and inspected, as well as decisions made during construction between the contractor chosen by the Buyer and the Buyer shall indemnify, defend and hold harmless the Seller regarding any possible liability, costs and attorney's fees that may arise or be alleged as a result of the Buyer building a structure using the Products.

The Buyer will be responsible for final decision/choice of selection of contractor. The Seller may provide recommendations of contractors they have previously worked with on prior projects. However, it is the sole responsibility of the Buyer to conduct due diligence prior to final selection of their choice. Buyer shall indemnify, defend and hold harmless the Seller regarding any possible liability, costs and attorney's fees that may arise or be alleged as a result of the Buyer's selection of a contractor.

INDEMNIFICATION: To the maximum extent permitted by law, Buyer shall indemnify, defend, and hold Seller harmless against any and all losses, damages, liabilities, deficiencies, claims, actions, judgments, settlements, interests, awards, penalties, fines, costs, or expenses of whatever kind, including reasonable attorneys' fees, fees, and the costs of enforcing any right to indemnification under this Purchase Agreement, relating to, arising out of, or resulting from any claim alleging: (i) personal injury, death, or damage to real or personal property; (ii) Buyer's negligence or willful misconduct; (iii) Buyer's violation of applicable laws, rules, or regulations; and (iv) the infringement of any intellectual or proprietary rights of any third party.

PRICE: Buyer shall purchase the Product from Seller at the prices set forth in this Purchase Agreement. Prices for the Products do not include any applicable transportation and delivery charges, unless otherwise specified.

PAYMENT TERMS: Buyer shall pay all invoiced amounts due to Seller [on receipt/within 15 days from the date] of Seller's invoice. Buyer shall make all payments hereunder by any approved payment method, and in US dollars. Late payments shall be subject to interest on the unpaid balance at the maximum rate permitted by law.

Unless otherwise stipulated in the Sales Agreement, standard payments are made according to the following schedule:

Purchases NOT Installed by Timberlyne:

Down Payment:

Payment for production schedule: Payment prior to shipping: 20% of the Product Total and applicable sales tax upon signature of this Purchase Agreement.

50% of the revised Product Total and applicable sales tax and 100% of engineering fees; prior to Seller scheduling production. Product Total balance (approximately 30%), remaining engineering fees, and 100% of estimated shipping costs.

Purchases Installed by Timberlyne:

Down Payment:

Payment for production schedule Payment prior to shipping: After Install completion: 20% of the Product Total and applicable sales tax upon signature of this Purchase Agreement.

50% of the revised Product Total and applicable sales tax plus 100% of engineering fees; prior to Seller scheduling production, 20% of final Product Total and applicable sales tax, remaining engineering fees, and 100% of estimated shipping costs. Product total balance and applicable sales tax (approximately 10%), any unpaid engineering and/or shipping costs.

TAXES: Buyer may provide, and Seller may accept, a certificate of exemption or other documentation evidencing that some or all of the transactions contemplated by this Purchase Agreement are exempt from tax, and if such documentation is submitted by Buyer and accepted by Seller. Seller will not collect and remit sales, use or other excise taxes on such transaction(s); provided, however, that if an exemption certificate previously accepted by Seller is not recognized by the governmental taxing authority involved, or if such governmental taxing authority determines that such certificate does not cover all assessed taxes. Buyer shall indemnify, defend and hold harmless Seller and its officers, employees, agents, successors and assigns from and against any and all such taxes and any related interest or penalties that may arise therefrom. Seller will promptly notify Buyer of any such claim by any such governmental taxing authority, and will, at Buyer's option, permit Buyer to take charge of the resolution of such claim and provide reasonable cooperation in connection therewith; provided, however, that Buyer may not resolve such claim without the prior written consent of Seller.

CHANGES TO PRICING: Any change to the Order Form, including but not limited to the components, building criteria values, or shipping dates, may result in changes to the price of Products to be paid by the Buyer. When plans are finalized by the Buyer, Seller sets into motion the manufacturing process including resources, material acquisition, engineering, and other expenses. Plans are considered "finalized" when stipulated by Buyer in writing and confirmed by Seller prior to engineering review. Any changes requested by the Buyer after the plans are finalized will result in additional cost and delays to manufacturing and delivery schedule. Any such monetary costs will be collected from the Buyer prior to changes being implemented by the Seller. If Buyer requests changes to plans after Buyer has agreed their plans are final, a minimum fee of \$2,500 will be added to the Product Total. This fee is independent of, and in addition to, any additional costs that may result from additional engineering fees and/or changes in materials caused by the change request.

During the final design process and/or after the engineering review process, structural changes may be requested by Buyer and/or required by the engineering review that will result in changes +/- to the original product scope and price. These changes will be communicated to the Buyer with the corresponding price changes associated with those structural changes.

In the event the cost of certain materials (example: plywood, OSB, nominal lumber, SIPS, etc.) increases or decreases by more than 10% between the date of this contract and the date of material purchase by the Seller (materials will not be purchased until engineered drawings are complete and project is set for manufacturing), the Contract Sum shall be adjusted to reflect the current pricing of those materials. The Seller's adjustment shall be made by change order or contract addendum. Any claim by Seller for payment of a cost increase shall require written notice to Buyer stating the increased cost and the building material(s) in question. The Buyer will have the option at that time to agree to pay the adjusted increased pricing or to deduct any line item(s) that are not agreed upon and source those materials elsewhere at their own effort. A deduction of any line item(s) will not affect the remaining contract materials.

TITLE AND RISK OF LOSS: All Products are shipped FOB Seller's facility located in Wayne, NE (Incoterms 2020). Title and risk of loss passes to the Buyer when the Products are picked up at the Seller's facility by the Buyer or by common carrier. When placing or re-selling a Timberlyne building(s) or products, it is the obligation of the Buyer and not that of the Seller to observe applicable local codes and regulations.

BUYER'S ACTS OR OMISSIONS: If Seller's performance of its obligations under this Purchase Agreement is prevented or delayed by any act or omission of Buyer or its agents, subcontractors, consultants or employees, Seller shall not be deemed in breach of its obligations under this Purchase Agreement or otherwise liable for any costs, charges or losses sustained or incurred by Buyer, in each case, to the extent arising directly or indirectly from such prevention or delay.

TIMBERLYNE Purchase Agreement Terms and Conditions

The purpose of this Purchase Agreement is to outline expectations for both Timberlyne (Seller) and Buyer for the purchase of Timberlyne product(s).

Sand Creek Post & Beam, Inc. DBA Timberlyne.

SCOPE: These Terms and Conditions (these "Terms") govern the sale of products (the "Products") to the Buyer as described on the accompanying Order Form (as amended from time to time, "Order Form" and, together with these Terms and Conditions, this "Purchase Agreement"). This Purchase Agreement constitutes the final, complete, and exclusive agreement between Buyer and Seller as to the sale of the Product identified in Order Form and supersedes all prior oral or written agreements (whether expressed or implied, including implied by custom, practice, course of dealing, or otherwise) with respect to the same. Buyer's execution of this Purchase Agreement, the making of any payment, or deposit to Seller as provided in this Purchase Agreement will constitute Buyer's acceptance of the terms and conditions of this Purchase Agreement. To the extent there are any inconsistencies between these Terms and Conditions and Order Form, the latter will control.

ORDERS: Acceptance of Buyer's order is expressly made conditional on assent to the terms and conditions set forth herein, which shall constitute the complete agreement between the parties.

PRODUCTS COMMITMENT: Seller will provide all materials necessary as outlined in the Order Form in order for the Buyer to construct the Timberlyne portion of the structure. The Buyer agrees to follow the final plans and reference the construction guide and become knowledgeable on the additional items necessary/recommended to erect the building that are not included in the Product(s) purchased.

SITE AND PERMIT PREPARATION: Buyer will provide a site as well as the equipment necessary to unload and store all building materials during the arrival, unloading, and building of the Products. The Buyer is responsible for knowing of and acquiring any permits necessary in order to construct the Products. If Seller includes in Order Form installation services, Seller will provide its own equipment to unload. It is the Buyer's responsibility to ensure the site & material storage area is flat and free of mud and is ready for delivery and unload of Products.

DELIVERY:

- 1. <u>Date</u> Seller shall assign a delivery date(s) for the Products after the progress payment is received by Seller. Any changes to the shipping/delivery date requested by the Buyer after a shipping/delivery date has been set may result in additional fees, penalties, storage charges, and other expenses, and such amounts shall be invoiced to and paid by Buyer. Buyer's requested changes to the shipping/delivery date is subject to approval by Seller in its sole discretion. Seller reserves the right to make delivery in installments, unless otherwise expressly agreed to by the parties; all such installments to be separately invoiced and paid for when due per the invoice, without regard to subsequent deliveries. Estimated total shipping costs will be sent to the Buyer within 30 days of shipment of the Products. Any credit or additional costs will be applied at time of shipment.
- 2. <u>Buyer Requested Delay:</u> Buyer acknowledges and agrees that Seller begins production of the Products upon the schedule agreed to by the parties, and that any deviation in the schedule may cause Buyer to incur additional expenses for changes in shipping, storage, demurrage, and other expenses related to such delay. In the event Buyer requires a change to the shipping/delivery date ("Delay"), Buyer shall promptly submit a Delay request to Seller at least thirty-one (31) days prior to the shipping/delivery date. If Buyer requests a Delay within thirty (30) days before the scheduled shipping/delivery date, the following fees will be incurred: (a) \$1,000 to reschedule (if request is made within fifteen (15) or more calendar days before the agreed upon shipment/delivery date), (b) \$2,500 to reschedule (if request is made within fifteen (15) calendar days of the agreed upon shipment/delivery date). Additionally, demurrage fees of 0.25% of final Product Total per week of such Delay will be calculated and assessed for delays after fourteen (14) days of the original agreed upon shipment/delivery date. If Buyer requests a Delay, Seller, in its sole and absolute discretion, will store the Products for a period no longer than ninety (90) days, and shall ship the Products to Buyer upon expiration of such ninety (90) day period. Buyer shall indemnify, defend, and hold harmless from any and all claims arising out of or related to a Delay requested by Buyer.
- 3. Location: Seller will ship the Product to the specified address provided by the Buyer on the Order Form (the "Delivery Point"). If for any reason Buyer, or Buyer's contractor or other agent fails to accept delivery of any of the Products on the date fixed pursuant to Seller's notice that the Products have been delivered at the Delivery Point, or if Seller is unable to deliver the Product at the Delivery Point on such date because Buyer has not provided appropriate instructions, documents, licenses or authorizations: (i) risk of loss to the Product shall pass to Buyer; (ii) the Product shall be deemed to have been delivered; and (iii) Seller, at its option, may store the Product until Buyer picks them up, whereupon Buyer shall be liable for all related costs and expenses (including, without limitation, storage and insurance).

4. Requirements and Specifications:

- a. Buyer's Products will arrive on full-size flatbed or step deck trailer(s). The truck/trailer combination is on average 75' in length, 13'6" in height and 8'6" wide with a weight of up to 80,000 lbs.
- b. It is the Buyer's responsibility to ensure that the route into the Delivery Point and the building site in general is accessible and can accommodate safe and legal entry and exit of the truck(s) as necessary.
- c. The Buyer must be prepared with an alternate delivery plan and communicate that plan with Seller in the event of problems during delivery. Delays caused by not being prepared can result in significant additional expense to the Buyer in detention, storage, and other fees with the carrier. Buyer shall be solely liable for all such additional expenses, and shall indemnify, defend, and hold Seller harmless from additional expenses.
- 5. Liability: It is possible that unforeseen occurrences may happen during the trucking/delivery of the Product which may include, but are not limited to, mechanical, technical, weather, availability of transportation, or other inherit situations, which Seller cannot control and shall not be held liable for any such unforeseen circumstances.
- 6. Non-Delivery: The quantity of any installment of Products as recorded by Seller on dispatch from Seller's place of business is conclusive evidence of the quantity received by Buyer on delivery unless Buyer can provide conclusive evidence proving the contrary. Seller shall not be liable for any non-delivery of Products (even if caused by Seller's negligence) unless Buyer gives written notice to Seller of the non-delivery within seven (7) business days of the date when the Products would in the ordinary course of events have been received. Any liability of Seller for non-delivery of any Products shall be limited to replacing the Products within a reasonable time or adjusting the invoice respecting such Products to reflect the actual quantity delivered. Buyer acknowledges and agrees that the remedies set forth in this section are Buyer's exclusive remedies for any non-delivery of Products.

Purchase Agreement - Terms and Conditions Cont'd

INSPECTION AND REJECTION OF NONCONFORMING PRODUCTS: Buyer agrees to complete a full inspection of all Product upon receipt of each shipment. Any claims for shortage in quantity or defective Products should be communicated to Seller within ten (10) calendar days of receipt. Please note that due to the nature of wood and possible imperfections, the Seller provides additional material overages. If no communication has been made within ten (10) calendar days of receipt, the Seller will consider the receipt of Product as acceptable and an admission by Buyer that the Products fully comply with all terms and conditions in this Purchase Agreement. The Buyer is then responsible for proper care and maintenance of the Product through the completion of construction. If Buyer timely notifies Seller of any nonconforming Product, Seller shall, in its sole discretion, (i) replace such nonconforming Products with conforming Products, or (ii) credit or refund the Price for such nonconforming Products, together with any reasonable shipping and handling expenses incurred by Buyer in connection therewith.

CONSTRUCTION DISCLAIMER: Seller assumes no liability as a result of the Buyer building a structure using the Products. The Buyer agrees to learn, or to hire same, and know best practices, industry standards, safety methods, in order to safely and properly assemble the Products. Seller shall not be liable for any accidents or injuries during construction. Buyer agrees to not hold Seller liable for decisions made after the Products have been delivered and inspected, as well as decisions made during construction between the contractor chosen by the Buyer and the Buyer shall indemnify, defend and hold harmless the Seller regarding any possible liability, costs and attorney's fees that may arise or be alleged as a result of the Buyer building a structure using the Products.

The Buyer will be responsible for final decision/choice of selection of contractor. The Seller may provide recommendations of contractors they have previously worked with on prior projects. However, it is the sole responsibility of the Buyer to conduct due diligence prior to final selection of their choice. Buyer shall indemnify, defend and hold harmless the Seller regarding any possible liability, costs and attorney's fees that may arise or be alleged as a result of the Buyer's selection of a contractor.

INDEMNIFICATION: To the maximum extent permitted by law, Buyer shall indemnify, defend, and hold Seller harmless against any and all losses, damages, liabilities, deficiencies, claims, actions, judgments, settlements, interests, awards, penalties, fines, costs, or expenses of whatever kind, including reasonable attorneys' fees, fees, and the costs of enforcing any right to indemnification under this Purchase Agreement, relating to, arising out of, or resulting from any claim alleging: (i) personal injury, death, or damage to real or personal property; (ii) Buyer's negligence or willful misconduct; (iii) Buyer's violation of applicable laws, rules, or regulations; and (iv) the infringement of any intellectual or proprietary rights of any third party.

PRICE: Buyer shall purchase the Product from Seller at the prices set forth in this Purchase Agreement, Prices for the Products do not include any applicable transportation and delivery charges, unless otherwise specified.

PAYMENT TERMS: Buyer shall pay all invoiced amounts due to Seller [on receipt/within 15 days from the date] of Seller's invoice. Buyer shall make all payments hereunder by any approved payment method, and in US dollars. Late payments shall be subject to interest on the unpaid balance at the maximum rate permitted by law.

Unless otherwise stipulated in the Sales Agreement, standard payments are made according to the following schedule

Purchases NOT Installed by Timberlyne:

Down Payment: 20% of the Product Total and applicable sales tax upon signature of this Purchase Agreement.

Payment for production schedule: 50% of the revised Product Total and applicable sales tax and 100% of engineering fees; prior to Seller scheduling production.

Payment prior to shipping: Product Total balance (approximately 30%), remaining engineering fees, and 100% of estimated shipping costs

Purchases Installed by Timberlyne:

Down Payment: 20% of the Product Total and applicable sales tax upon signature of this Purchase Agreement.

Payment for production schedule: 50% of the revised Product Total and applicable sales tax plus 100% of engineering fees; prior to Seller scheduling production. Payment prior to shipping: 20% of final Product Total and applicable sales tax, remaining engineering fees, and 100% of estimated shipping costs.

After Install completion: Product total balance and applicable sales tax (approximately 10%), any unpaid engineering and/or shipping costs.

TAXES: Buyer may provide, and Seller may accept, a certificate of exemption or other documentation evidencing that some or all of the transactions contemplated by this Purchase Agreement are exempt from tax, and if such documentation is submitted by Buyer and accepted by Seller, Seller will not collect and remit sales, use or other excise taxes on such transaction(s); provided, however, that if an exemption certificate previously accepted by Seller is not recognized by the governmental taxing authority involved, or if such governmental taxing authority determines that such certificate does not cover all assessed taxes. Buyer shall indemnify, defend and hold harmless Seller and its officers, directors, employees, agents, successors and assigns from and against any and all such taxes and any related interest or penalties that may arise therefrom. Seller will promptly notify Buyer of any such claim by any such governmental taxing authority, and will, at Buyer's option, permit Buyer to take charge of the resolution of such claim and provide reasonable cooperation in connection therewith; provided, however, that Buyer may not resolve such claim without the prior written consent of Seller.

CHANGES TO PRICING: Any change to the Order Form, including but not limited to the components, building criteria values, or shipping dates, may result in changes to the price of Products to be paid by the Buyer. When plans are finalized by the Buyer, Seller sets into motion the manufacturing process including resources, material acquisition, engineering, and other expenses. Plans are considered "finalized" when stipulated by Buyer in writing and confirmed by Seller prior to engineering review. Any changes requested by the Buyer after the plans are finalized will result in additional cost and delays to manufacturing and delivery schedule. Any such monetary costs will be collected from the Buyer prior to changes being implemented by the Seller. If Buyer requests changes to plans after Buyer has agreed their plans are final, a minimum fee of \$2,500 will be added to the Product Total. This fee is independent of, and in addition to, any additional costs that may result from additional engineering fees and/or changes in materials caused by the change request.

During the final design process and/or after the engineering review process, structural changes may be requested by Buyer and/or required by the engineering review that will result in changes +/- to the original product scope and price. These changes will be communicated to the Buyer with the corresponding price changes associated with those structural changes.

In the event the cost of certain materials (example: plywood, OSB, nominal lumber, SIPS, etc.) increases or decreases by more than 10% between the date of this contract and the date of material purchase by the Seiler (materials will not be purchased until engineered drawings are complete and project is set for manufacturing), the Contract Sum shall be adjusted to reflect the current pricing of those materials. The Seller's adjustment shall be made by change order or contract addendum. Any claim by Seller for payment of a cost increase shall require written notice to Buyer stating the increased cost and the building material(s) in question. The Buyer will have the option at that time to agree to pay the adjusted increased pricing or to deduct any line item(s) that are not agreed upon and source those materials elsewhere at their own effort. A deduction of any line item(s) will not affect the remaining contract materials.

TITLE AND RISK OF LOSS: All Products are shipped FOB Seller's facility located in Wayne, NE (Incoterms 2020). Title and risk of loss passes to the Buyer when the Products are picked up at the Seller's facility by the Buyer or by common carrier. When placing or re-selling a Timbertyne building(s) or products, it is the obligation of the Buyer and not that of the Seller to observe applicable local codes and regulations.

BUYER'S ACTS OR OMISSIONS: If Seller's performance of its obligations under this Purchase Agreement is prevented or delayed by any act or omission of Buyer or its agents, subcontractors, consultants or employees, Seller shall not be deemed in breach of its obligations under this Purchase Agreement or otherwise liable for any costs, charges or losses sustained or incurred by Buyer, in each case, to the extent arising directly or indirectly from such prevention or delay.
