Brief Summary:

On-going drainage issues have been present in the Blatt Subdivision for an extended period of time. Specifically, along Riverlane Dr at Fairview. Excessive collection occurs at this junction. We have cleaned and camera'ed the line from Kennedy Dr until discharge inside our property at the west end of Riverlane and found all pipe to be in good repair. However, Engineers have reviewed the issue and made a recommendation to upsize the collection system in this neighborhood. This project fits the criteria established to use the MFT funds allotted over the upcoming years via the Rebuild Illinois program. Prelim Budget estimate for project is \$995,000.00
